Lay a firm foundation

Building a fleet? Start with a solid foundation.

The best upfits start with LEGEND floors and interior liners. Built to last, and guaranteed to protect your van from the inside out, our line-up of premium products make sure your upfit starts off with a bang.

RIGID FLOORS

Legend composite floors outlast and outperform plywood in every comparable metric. From durability to long-term affordability, our floors protect the residual value of your vehicle for years to come.

- Made from sustainable, recycled materials
- Impact, Puncture, Chemical and Moisture resistant
- Extreme anti-slip topskin for all-weather applications
- Lighter than plywood
- Ease of installation - up to 90% faster

Our versatile lineup of flooring options ensure a solution for your vehicle no matter the budget or fleet size.

INTERIOR LINERS

Our interior liners are built-in armour plates for your van. They protect your bare metal walls against dents, dings and accidental damage. They also provide an essential layer of insulation for your cargo space.

- Insulated to protect against extreme temperatures
- Heavy-duty walls, ceilings and doors
- Extremely resistant to water damage
- Reduce road noise
- Maintain professional image with clean aesthetic

A large contributor to Thermal Management, interior liners can dramatically reduce the impact of extreme weather on your van.

ACCESSORIES.

VEHICLE ACCESSORIES

Our **VEHICLE SECURITY** solutions turn your van into a vault. With locks made of anti-cutting and anti-drilling steel, you can ensure the safety and security of your van.

Multiple models allow for flexibility of both budget and application. Just close the door and walk away - it's that easy!

Legend **WHEEL WELL COVERS** effectively protect your wheel arches from accidental damage and simultaneously reduce road noise.

Wheel wells are often the first thing to damage in your van - protect them appropriately.

VENTILATION UNITS can provide a healthy ventilation solution for your work van. By cycling out airborne gases, mitigating extreme heat, and removing moisture, ventilation units increase your safety while you're on the road.

LIGHTING SOLUTIONS allow you to work fully unobstructed, day or night, without the fear of draining your van battery.

Potential for injury increases in low lighting. With motion sensor ceiling lights, you can ensure appropriate lighting in the darkest environments

Steel Thresholds

VEHICLE ENTRY

VEHICLE ENTRY

High-visibility steel **GRAB HANDLES** offer maximum grip and visibility for operators with textured yellow coating. Increase safety and reduce the potential for accidental falls and injury.

ENTRY STEPS ensure safe entry and exit out of your vehicle every single time. With an extreme anti-slip topskin and incredible weight capacity, our steps virtually eliminate potential slips and falls.

Made from quality 14 gauge steel and coated with durable non-slip coating, our **STEEL DOORWAY THRESHOLDS** are more durable and cost effective than factory alternatives.

ALUMINIUM SILL PLATES protect your van in the areas where foot traffic is the highest. With a raised texture finish for traction and potential for injury is greatly reduced.

INCREASE THE DURABILITY AND SAFEGUARD THE HIGH TRAFFIC AREAS OF YOUR VEHICLE.

Entry Steps for peace of mind
