

TRUCK BODIES THAT WORK AS HARD AS YOU DO

TRUCK BODIES

EBY EDGE

HD SINGLE-WALL LANDSCAPE BODY

Custom equipment that works smart

The EBY EDGE all-aluminum landscape body is a hard-working, heavy-duty body that weighs 30% less than steel bodies. Less body weight means you can haul more per load, saving you real money on fuel. We build this body with a variety of rear door options and lots of choices in back-pack or underbody tool boxes. We support it with steel ICC bumpers and hitches and the best dump hoists and hydraulics in the business. And, we finish it with the care and craftsmanship that has made EBY famous.

Standard Sizes:

Lengths: 8' to 24'

Widths: 96" and 102"
