

RHD SERVICE BODIES

**BUILT FOR CREWS
WHO DEMAND MORE
FROM WORK TRUCKS.**

FEATURES AND OPTIONS RHD BODY

RHD-46 shown

1 TORSION BOX UNDERSTRUCTURE

The RHD Service Body features a heavy-duty torsion box understructure engineered for strength, durability, and load distribution across demanding applications. The RHD-46 utilizes an 8" torsion box for Class 4-6 work, while the RHD-67 incorporates a 10" torsion box to support heavier Class 6-7 requirements.

2 SPRAY LINER AND RUST PROTECTION

An optional, professional-grade, spray-on bedliner provides outstanding protection against chips, scuffs and damage while minimizing rust. It features a slip-resistant surface that improves traction and safety when walking in the bed.

3 TOWING CAPABILITY

When you need to tow, we have you covered. All of our RHD Service Bodies have structural tow hitches that are tested and rated from 20,000 to 30,000 lbs., depending upon model.*

4 COMPRESSION HANDLES

Our ergonomically designed 3-point whale tail compression handles are easy to use even while wearing gloves. With a full chrome polished appearance, they look as great as they work.

5 STROBE LIGHTS

Stay safe and visible with standard strobe lights on the back of all our RHD Service Bodies. When connected to upfitter switches in the cab, strobe lights help protect you and your crew with the flip of a switch.

6 ADJUSTABLE SHELVING

Professional-grade divider shelving is infinitely adjustable on strut channels, so you can arrange the shelves exactly where you want them. Add your own accessories using industry standard hardware for additional configurations.

7 LED REAR LIGHTING

Red LED stop/tail/turn/reverse and amber LED strobe lights provide bright, dependable visibility on the road and jobsite. Integrated white and amber strobe functionality enhances safety, while water-resistant housings and automotive-grade sealed connectors ensure lasting durability.

8 WEATHERPROOFING

Our Dual-Pro® door seal system combines automotive-quality weatherstripping with a mechanical design that channels water away from your storage compartments.

BUILT FOR THE WORK THAT DEMANDS MORE FROM WORK TRUCKS.

When the job calls for strength, durability, and capability without compromise, the RHD Service Body delivers. Designed from the ground up for heavy-duty applications, the RHD lineup combines reinforced torsion box construction with deep, organized compartments and work-ready features built to perform in demanding environments. Whether supporting construction crews, utility teams, government fleets, or field service operations, the RHD is engineered to handle tough workloads without compromise. Backed by Reading Truck craftsmanship and a national upfit network, it's a heavy-duty solution built to perform today and last for the long haul. **Heavy-Duty Construction. Everyday Reliability.**
